| <b>First-Aid Measures After Inhalation</b>   | : If container is punctured and exposed to escaping gas: Obtain medical attention if breathing difficulty persists. First, take proper precautions to ensure your own safety before attempting rescue (e.g. wear appropriate respiratory protective equipment, use the buddy system), then remove the exposed person to fresh air. Keep at rest in a position comfortable for breathing.  |
| <b>First-Aid Measures After Skin Contact</b> | : If container is punctured and exposed to escaping gas: Obtain medical attention if irritation develops or persists. For brief contact with a small amount: Rewarm with body heat. Get immediate medical advice/attention. For extensive contact or a large amount: Immediately call a poison center/doctor and follow their advice. Specific treatment is urgent, incorrect first-aid practices will aggravate the injury. Protect affected area with a loose cover until proper medical treatment is received. |
| <b>First-Aid Measures After Eye Contact</b>  | : If container is punctured and exposed to escaping gas: Rinse cautiously with water for at least 5 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.   |
