## 8.2. Exposure controls

Appropriate engineering controls

: For occupational/workplace settings: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.

Personal protective equipment

: For occupational/workplace settings and bulk quantities: Gloves. Protective clothing. Protective goggles.

Materials for protective clothing

: For occupational/workplace settings: Chemically resistant materials and fabrics.

Hand protection

: For occupational/workplace settings: Wear protective gloves.

Eye protection

: For occupational/workplace settings: Chemical safety goggles.

Skin and body protection

: For occupational/workplace settings: Wear suitable protective clothing.

Respiratory protection

: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other information

: When using, do not eat, drink or smoke.
